COMMUNICATION

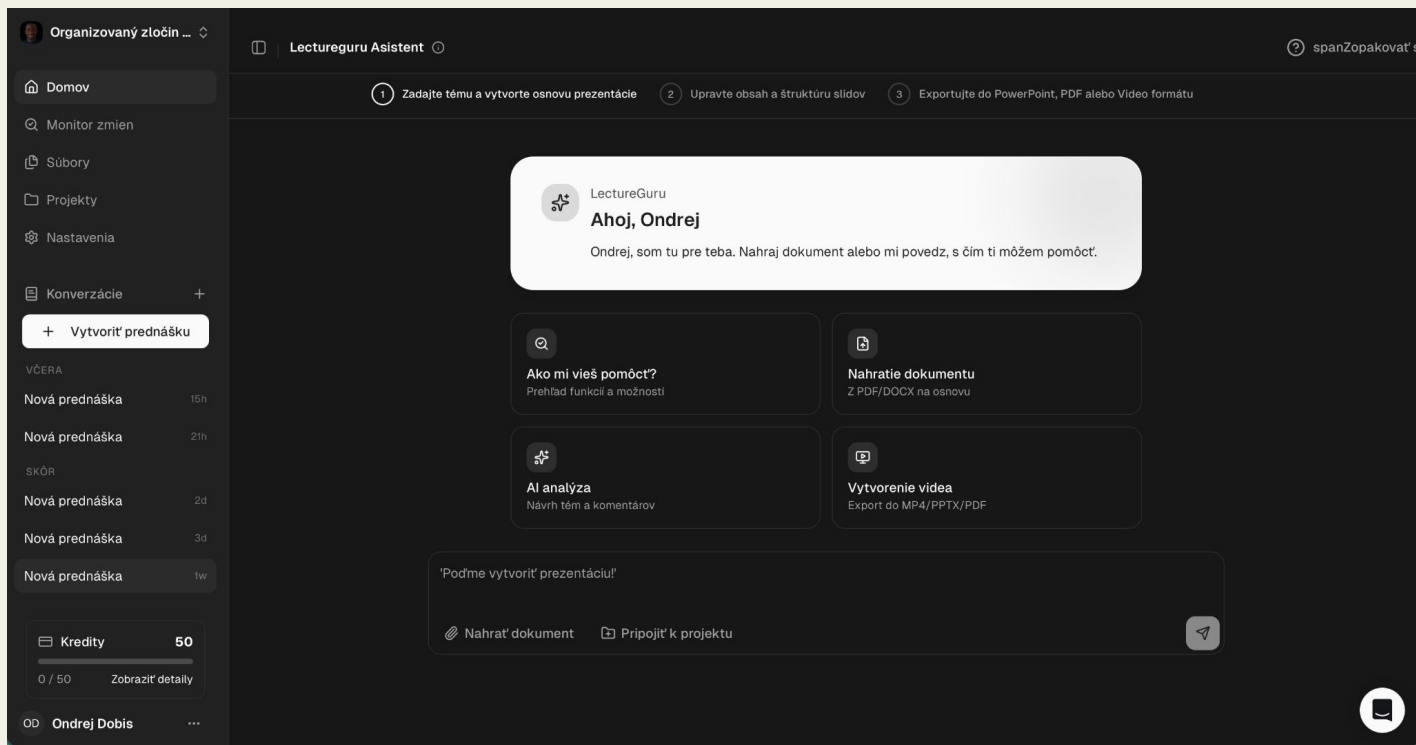

WHO?

- **Aigency** is a company that develops advanced AI platforms to support clients across a wide range of professional fields, as well as in specialized areas such as marketing and e-commerce.
- Internship mentor: **Adam Sako**

WHAT?

LectureGuru is an advanced AI platform that rapidly transforms ideas, documents, or URLs into professional educational videos, presentations, and PDFs.

WHAT? - Project info

Core functionality

Converts uploaded files or web links into **polished training content** featuring AI-generated voiceovers, visuals, and structured narratives.

Utilizes a conversational AI chatbot to develop complete materials from initial concepts, such as employee onboarding, product tutorials, or compliance training (e.g., GDPR).

Key Value Proposition

Reduces production time and cost

Enables automatic content regeneration when source materials update

Provides versatile, ready-to-deploy outputs tailored for businesses, educators, and teams across professional development needs.

WHAT? - Expected results

- A variety of delivered features, including but not limited to:
 - **Projects** - space to organize sources, context, personalization and existing chats that have a matching topic
 - **Project change monitoring** - After changes are detected on specific web addresses, the system will create a new presentation and send it to the users within organization.
 - New **presentation formats** using react components (+ additional features)

WHY?

- Efficient management of sources and presentations shared across organization and its stakeholders
- Smart change monitoring: To have **up-to-date** learning content always ready.
- New React-based designs to **boost interactivity and engagement.**

WHY?

- Efficient management of sources and presentations shared across organization and its stakeholders
- Smart change monitoring: To have **up-to-date** learning content always ready.
- New React-based designs to **boost interactivity and engagement.**

TIMELINE

1. Projects
2. Projects change monitoring
3. Chat UI enhancements - presentChoices feature
4. New slide format - present choices
5. Public/ private access
6. Voiceover
7. Language toggle
8. Quiz + Analytics

COMMUNICATION

Weekly Status Report Structure

- What I did
- What problems occurred
- Which solutions

Week 3 Meeting

- Project plan presentation
- Discussion by student, mentor, and student

Before Week 7

- Intermediate 'formative' evaluation
- Discussion by student, mentor, and student

Thank you.
